

 Scotland's Colleges

Programme

**Scotland's Colleges Governance  
Programme - Corporate Governance**

**Thursday 24 September 2009**

**Scotland's Colleges, Argyll Court, Stirling**

## Background

This new programme designed specifically for Boards of Governors/Management in Scotland's colleges, developed in conjunction with the Institute of Directors (IoD) and representatives from college Boards was launched in 2008 at a conference held at Cumbernauld College attended by board members from over 30 Scottish colleges.

The Governance Development Programme focuses on three key elements which reflect both the essential requirements and this broader role. The first element covers aspects relating to corporate governance, strategic leadership and continuous improvement delivered through a National Conference proposed for spring/summer this year as well as a series of three regional workshops which will be delivered with IoD Scotland. The workshops are designed to provide an opportunity for board members from different colleges to meet, share experience and build on good practice.

## Aim of Event

The seminar is explicitly designed for Scotland's colleges and will focus on:

- the consideration of the roles and responsibilities of board members and boards of management
- ensuring effective relationships between the governing body and the senior management team
- the added value board members provide
- what constitutes a high performing board.

## Target Audience

All members of governing bodies including both new and existing members who want to refresh their knowledge and understanding of wider aspects of governance and accountability.

## After this event you should be able to...

## Cost

This is a free event.
