

Dundee College

Working with Leonardo

FOLLOWING THE on going success of the "Eurobusiness" mobility project, supported by the EU Leonardo da Vinci Programme, College care trainees undertook similar 4 week work placements in March / April of this year.

The "Eurocare" project enabled 16 trainees from child, social and healthcare to put skills learned at Dundee College into practice in Holland, Sweden and Finland. Trainees found the experience very beneficial.

The college intends to expand future care work placement programmes increasing the number of participants and involving new partner countries. Including Denmark and the Czech Republic. Other curriculum areas are keen to develop an international work placement as part of their HN

programmes and it is planned to offer similar opportunities in Biotechnology next session.

Aileen McNicoll, HNC Childcare student on placement at Meripirtti Day Care Centre in Helsinki.
